

**CAMARON™**
LIFE SCIENCES

Our Vision

.....

We specialize in sustainable aquaculture solutions, delivering high-quality products for healthier aquatic ecosystems.

Scientific Research : Camaron to develop and provide high-performance health products backed by scientific research.

Sustainability : Camaron to promote eco-friendly farming practices that minimize environmental impact.

Support : Camaron to act as a "Partner in Progress" for farmers, providing technical expertise and reliable services to maximize yield.

Quality : Camaron to maintain the highest standards of safety and nutrition in every product we deliver.

CAMARON

Presentation : 1Lt.

Scaven Prob

Bioscavenger

WATER and SOIL probiotic

BENEFITS :

For Water

Decompose the organic waste, include animal manue

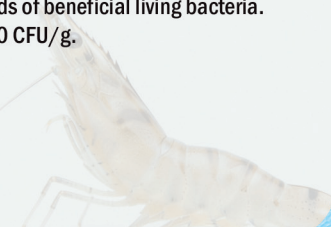

- Remove Nitrate ● Adjust PH Value
- Remove algae ● No-Side effects
- Removing NH-3 N (Ammonia nitrogen)
- Promote the pond water in Natural balance
- Remove toxics and the harmful gas caused by ammonia nitrogen, nitrite, hydrogen sulfide, methane and etc
- Increases DO (dissolvaing oxygen)

Main Ingredients :

Bacillus subtilis, Rhodopseudomonas palustris, thiobacillus, nitrifying bacteria, denitrifying bacteria, and etc., a dozen kinds of beneficial living bacteria. Viable count is 10^{10} CFU/g. 20 billion per ml

Dosage :

500ml per acer

CAMARON

Presentation : 500g.

Multistrains of eco-friendly, Bio-Degradable Probiotic Bacterial Species

CAMPRO

Soil & Water Probiotic

COMPOSITION :

Spore form eco- friendly Bacterial strains of Bacillus subtilis, Bacillus megaterium, Bacillus polymyxa, Bacillus licheniformis, Bacillus coagulans. Each gram Campro contains 20 billion spore forming units.

BENEFITS :

- CAMPRO degrades organic matter.
- CAMPRO converts Ammonia & H₂S into Non toxic elements.
- CAMPRO Improves DO Levels.
- CAMPRO Optimises Water Quality Parameters.

DOSAGE :

250 gm per acre
Method of Application : Dissolve 50gm of Campro & 100gm of Jaggery in 50Ltr. of water and then add 250gm of Campro, brew it for 48hrs. then apply throughout the pond during morning hours.

CAMARON

Presentation : 500g.

PROVEN-Tab

High strength multistrain probiotics with enzymes in tablet form

COMPOSITION:

Bacillus magaterium (2.5 Billion), Bacillus polymyxa (2.5B), Bcillus pumilus (2.5B), Bacillus Claussil (2.5B), Paracoccus margi natus (0.5B), Paracoccus pantotropus (2B), Streptococcus thermophilus (2.5B), Bacillus amyloliquefaciens (1B), Bacillus mesentricus (0.5B), Enterococcus facium (2.5B), Lactobacillus rhamnosus (2B), Lactobacillus sporogenes (1B), Pediococcus Acidilactici (0.5B), Mannan Oligo Saccharide (MOS) Beta Glucons, B1-3, B1-4, B1-6, Alpha-Amylase (250 IU), Lipase (250 IU), N protease (10000 IU), Phytase (200 IU), Xylanase (2000 IU), Maltodextrin (Malto), Starch Powder.

BENEFITS :

- Highly prevents the Vibrio bacteria loads in Pond water.
- Controls the running mortality in Shrimp.
- Helps to maintain the microbial balance in the Shrimp intestine.
- Inhibit the multiplication of Vibrio Spp were presented.
- Increases the immune system and improves the FCR.

DOSAGES and APPLICATION :

Pond Application : 200 to 250 gm per acer
For feed : 5 tablets for kg feed, dissolve in 100ml water then apply to feed

CAMARON

DOSAGE :

Fish : 5-10 kg per acre.
Shrimp : 10kg per acre

Presentation : 10kg.

Complete Mineral Solution For *Vannamei*

CATAMIN

Mineral Composition of *L. Vannamei* culture water plays an important role, not only on the growth and survival of shrimp but also for stability of the aquaculture pond. Deficiency of mineral ions in the aquaculture system causes imbalance of the osmoregulatory function in shrimp and low availability of natural food in the pond.

- **CATAMIN** contains multiminerals to keep water properties within the safe level for growing shrimp.
- **CATAMIN** is a concentrated form of Micro & Macro Minerals scientifically designed for *L. Vannamei*.
- **CATAMIN** is an effective solution for mineral imbalance in high density *L. Vannamei* culture ponds.
- **CATAMIN** regulates the exchange of water and solutes within the shrimp body thus maintains osmotic pressure, acid base equilibrium & pH of the shrimp body.
- **CATAMIN** promotes formation of hard and soft tissue matrix & strengthens muscular control.

INDICATIONS :

- It contains sufficient Micro & Macro minerals to substitute mineral deficiency in the pond soil.
- Balances osmoregulatory mechanism.
- It supports development of good plankton in pond water.
- It improves water quality.

COMPOSITION :

Macro & Micro minerals suitable for aquaculture ponds.

Manganese - 5.0%	Iron - 5.0%
Zinc - 7.5%	Copper - 0.5%
Magnesium - 7.5%	Selenium - 0.02%
Potassium - 7.5%	Cobalt - 0.02%
Sodium - 2.5%	Phosphorus - 13%
	Calcium - 16%

CAMARON

Presentation : 10kg.

ELECTROMIN

Regulates Osmotic Mechanism In **VANNAMEI**

COMPOSITION :

Osmo Regulating Essential Amino Acids, Phospho lipids and Salts.

INDICATIONS :

- 100% Bio Available and Water Soluble Essential Minerals.
- Avoids osmotic stress in *Vannamei*.
- Regulates the Osmotic mechanism in shrimp.
- Key components in extra and intra cellular activity.
- Serves as cofactors in number of enzymetic reactions.
- Important roll in metabolism of lipids, proteins and carbohydrates.
- Improves growth and survival of shrimp.

DOSAGE & APPLICATION :

5 kg per acre. @ 15days interval
Mix well with water and apply throughout the pond.

CAMARON

Presentation : 5Lt & 15Lt.

Nanomin

Instant Bio Available **LIQUID MINERALS**

BENEFITS :

- To help the pre-moulting of the shrimp and avoid the loose shell problem.
- Improves primary production and enhances the development of phytoplankton.
- Improves growth, moulting and survival rate of shrimps.
- Maintain the optimal mineral profile in the water, soil and shrimp.
- Balance the minerals deficiency.
- Immediate relief from muscle cramp and white muscle symptom.

COMPOSITION :

Nanomin Contains a unique proprietary blend of fat & water soluble Vitamins, Macro, Micro Minerals & Amino Acids.

DOSAGE & APPLICATION :

During pond preparation : 5-10Lt./acre.

During culture :

2-3Lt. /acre. once in every 10 days
For Use in feed : 10-20ml. / Kg feed.

CAMARON

Presentation : 750g.

VIRON

EFFECTLY WORKS ON CRUSTACEANS VIRUSES

COMPOSITION :

Combination of 100% Natural antiviral nutrient herbs.

BENEFITS :

- Contains synergetic active 100% natural antiviral herbs.
- Protects from viral disease transmission.
- Excellent static activity on shrimp viruses.
- Restricts the proliferation of virons in shrimp tissue.
- Revives shrimp health.
- Improves feed intake.

DOSAGE & APPLICATION :

100g per 10kg feed (10g/ 1kg feed) for 10 to 15 days.

Application : Take 100g Viron in 1500ml (1.5L) Boiled water, mix well and keep it for 15 to 30min., then filter the liquid. The filtrant liquid mix well to the 10kg of feed.

CAMARON

Presentation : 500g. & 1kg

ASTABILE

IMPROVES
SHRIMP
Metabolism

COMPOSITION :

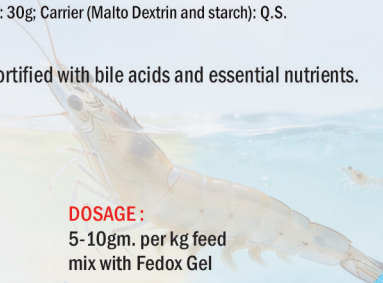

Each 100g contains: Bacillus and Lactic acid Bacillus strains (20Billion/g): 10g; Bile acids: 500mg; Astaxanthin: 250mg; Amylase (5000u/g): 400mg; Protease (50000u/g):1g; Lipase (50000u/g):750mg; Phytase (50000u/g):50mg; Vitamin A: 50,000iu; Vit. D3: 16,000iu; Vit. E: 1.6g; Vit. K: 400mg; Vit. C: 2.5g; B1: 100mg;B2: 600mg; B6: 200mg; B12: 0.4mg; Ca. panthionate:1g; Niacin: 1g; Biotin: 10mg; Folic acid: 36mg; Inositol: 1g; Lysine:5g; DL Methionine: 2.5g; Threonine: 1g; Glycine: 500mg; Soluble proteins: 10g; (Casein & Amino Protein)Betain. HCl: 500 mg; cobalt: 2mg; Copper Glycinate: 125mg; ferrous Glycinate: 1.5g; Magnesium Glycinate: 3.5g; Manganese Glycinate: 325mg; Potassium iodide: 33mg; Sodium selenate: 5mg; Zinc Glycinate: 3.5g; Di- sodium Phosphate: 10g; Potassium Chloride: 2.5g; Calcium Phosphate (Mono and Di Basic): 30g; Carrier (Malto Dextrin and starch): Q.S.

BENEFITS :

- Contains High-Concentration of suitable bene- ficial gut probiotic strains fortified with bile acids and essential nutrients.
- Improves Hepatopancreas (HP) and Gut Health.
- Protects the damage of hepatic cells and strengthens the gut villi.
- Avoids fatty liver and apoptosis syndrome.
- Increases dietary metabolic energy utilisation from lipids.
- Enhances protein and lipid digestion capacity.
- Improves feed intake and growth rate.
- Protects from diseases and improves shrimp immunity.

DOSAGE :

5-10gm. per kg feed mix with Fedox Gel

CAMARON

Presentation : 500g.

ADVANCED & INNOVATIVE PRODUCT

ENTRACT

Unique Natural Solution for EHP

COMPOSITION :

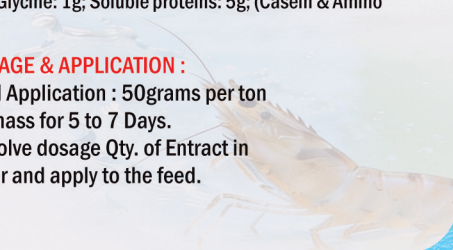

Each 100g contains: Herbal extract complex mix (Eclipta alba, Picrorhizakurea, Andrographis, Phyllanthus, Punica, Aristolochia: 35g; Probiotic mix (Lactobacillus rhamnosus, Lactobacillus casei, and Saccharomyces boulardii, 100b/g): 2.5g; Organic acid buffer salts mix: 35g; Vitamin A: 50,000 IU; Vit. D3: 16,000 IU; Vit. E: 1.6g; Vit. K: 400mg; Bile acid salt: 5g; Lysine:2.5g; DL Methionine:2 g; Threonine: 500mg; Glycine: 1g; Soluble proteins: 5g; (Casein & Amino Protein), Betain. HCl: 2.5 g;Excipients (Soluble Starch): Q.S.,

INDICATIONS:

- Most effective on enterocytozoans in shrimp.
- Entract shows instant action.
- Protects from white muscle syndrome.
- Very easy to application.
- Stimulates shrimp growth
- Improves feed intake.

DOSAGE & APPLICATION :

Feed Application : 50grams per ton Biomass for 5 to 7 Days. Dissolve dosage Qty. of Entract in water and apply to the feed.

FCR POWER

IMPROVES
SHRIMP
IMMUNITY

Presentation : 1kg. & 500g

COMPOSITION: Each 100g contains: Vitamin A: 50,000 IU; Vit. D3: 16,000 IU; Vit. E: 1.6g; Vit. K: 400mg; Vit. C: 2.5g; B1: 100mg; B2: 600mg; B6: 200mg; B12: 0.4mg; Ca. panthionate: 1g; Niacin: 1g; Biotin: 10mg; Folic acid: 36mg; Inositol: 1g; Lysine: 5g; DL Methionine: 2.5g; Threonine: 1g; Glycine: 500mg; Soluble proteins: 10g; (Casein & Amino Protein) Betain. HCl: 500 mg; cobalt: 2mg; Copper Glycinate: 125mg; Ferrous Glycinate: 1.5g; Magnesium Glycinate: 3.5g; Manganese Glycinate: 325mg; Potassium iodide: 33mg; Sodium selenate: 5mg; Zinc Glycinate: 3.5g; Di- sodium Phosphate: 10g; Potassium Chloride: 2.5g; Calcium Phosphate (Mono and Di Basic): 30g; Carrier (Malto -Dextrin and Starch): Q.S.,

BENEFITS:

- FCR Power has osmoprotective properties.
- Protects Intestinal cells from microbial toxins.
- Improves retention of all minerals in body.
- Supports regeneration of damaged tissue.
- Better cellular absorption of nutrients.
- Strengthened non specific innate immunity
- Improves feed intake and weight gain.

DOSAGE & APPLICATION :

4 gm per kg feed Mix with FCR Power and then apply to the feed.

Protects from Osmotic Stress

ELECTROLYTE

Presentation : 1kg

COMPOSITION :

Osmo Regulating
Essential Amino Acids,
Phospho lipids and Salts.

BENEFITS :

- 100% Bio Available and essential nutrients for regulating Osmotic mechanism of shrimp in low saline and borewell culture ponds.
- Optimises extra and intra cellular activity of shrimp.
- Enhances digestibility as well as absorption of feed nutrients.
- Improves survival and growth rate of shrimp.

DOSAGE :

10gm. per 1 kg feed

SNAIL FREE

Effectively controls all variety
SNAILS & SLUGS 

Presentation : 1kg.

Composition :

Organic Natural Extracts from :
Maduca longifolia - 35%
Derris Elliptica - 30%
Excipients - Q.S.

BENEFITS :

- ▶ Highly effective on all variety species of snails and slugs.
- ▶ Effectively controls all types snails in shrimp pond.
- ▶ Very safe to crustacean spp. (shrimp) and no residual effect.
- ▶ Very easy for application.

DOSAGE :

750-1kg / acre at 1 feet water depth.

DONT USE IN FISHCULTURE PONDS

Unique Solution For White Gut

Regen^{Gel}

Presentation : 1Lt.

COMPOSITION :

- Buffered organic acids
- Natural Hepatoprotectants
- Soluble proteins
- Vitamins
- Osmotic Salts
- Enzymes

INDICATIONS :

- Controls enteric pathogenic bacterial load in hepatopancreas (HP) and gut.
- Protects damage of Hepatocytes.
- Assists pH modulation in gut.
- Helps to recover the damaged gut epithelium.
- Effectively controls white gut symptom
- Regenerates Damaged connective tissue.
- Improves gut absorption efficiency.
- Improves weight gain and FCR.

Dosage & Application :

Dissolve 10-20 gm of Regen-Gel in 25-50ml of Water and then apply to the 1kg of feed continue for 10-15 days

STAB-C

Coated Vitamin C

Presentation : 500g. & 1kg.

COMPOSITION :

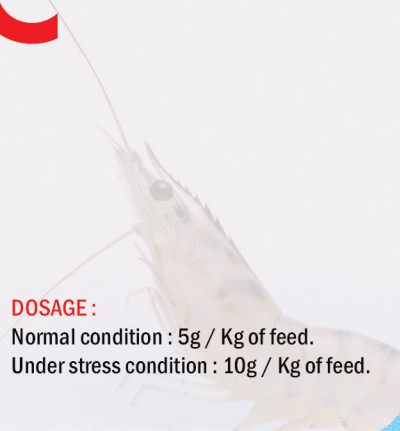

Ascorbyl Polyphosphate with attractants and carriers.

BENEFITS:

- Helps in the formation of collagen.
- Helps in developing resistance to combat diseases.
- Prevents formation of soft shell and black death.
- Ensures optimal FCR.
- Helps in proper moulting.

DOSAGE :

Normal condition : 5g / Kg of feed.
Under stress condition : 10g / Kg of feed.

AMONITE

CONTROLS TOXIC GASES

Presentation : 500g.

COMPOSITION :

Yucca schidigera extract

BENEFITS :

- Contains Natural Steroidal Glyco component Herbal Extracts (spray dried *Yucca schidigera*)
- Adsorbs Noxious Gases like Ammonia & H₂S in Culture Ponds
- Improves Plankton Blooms
- Maintains Optimum D.O. Levels
- Optimises Water Quality Parameters for better growth

DOSAGE & APPLICATION :

250-500 gm per Acre.
Mix with Zeoran Zeolite and then apply through out the pond

Innovative Pre Stocking
Pond Preparation

SPORONILL

Prevents Horizontal Transmission of EHP

Broad Spectrum Activity
Most Effective Soil Treatment

Presentation : 5kg & 10kg.

COMPOSITION :

Sporonill is unique combination of freely water soluble butyrate components.

INDICATIONS:

- Most effective on enterocytozoons of eco-system.
- Avoids horizontal transmission of EHP
- Exhibits instant action.
- Protects from shrimp stunted growth.
- Very easy to application.
- Longer residual activity.
- Maintains healthy pond environment.

DOSAGE & APPLICATION :

10-15 kg per Hectare. Sporonill to be dissolved in water and applied throughout the pond during pre stocking when the water level is of 1 feet depth. The rest of the water to be pumped in the pond after 12 -18 hrs. of Sporonill application.

Vibsan

POWERFUL WATER SANITIZER

Presentation : 1Lt.

COMPOSITION :

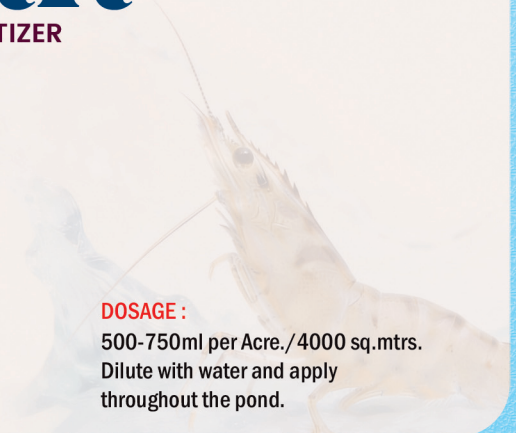

Combination of dodecyl dimethyl ammonium bromide, silver ions, glutaraldehyde and suitable catalysts.

BENEFITS :

- Shows rapid & synergetic action on pathogenic bacteria, fungi and protozoa.
- Effectively controls gill associated infections.
- Has high residual activity.
- Stimulates moulting in shrimp.
- User Friendly & Farm Friendly.

DOSAGE :

500-750ml per Acre./4000 sq.mtrs. Dilute with water and apply throughout the pond.

Natural Powder Zeolite ZEORAN

Geolites & Oxidisers to Improve DO

Presentation : 25kg.

COMPOSITION :

SiO₂ - 60-63%
Na₂O - 2 - 3%
Fe₂O₃ - 2 - 3%
CaO - 4 - 6%
Al₂O₃ - 29%
K₂O - 2%
MgO - 2 - 3%

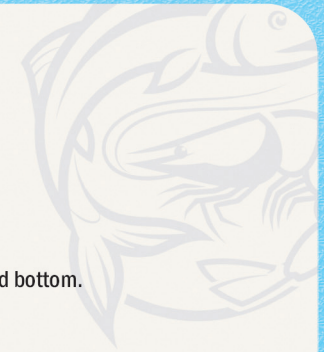

Oxidisers Natural Toxic Gas Binders - Q.S.

INDICATIONS :

- Removes toxic gases like ammonia & H₂S from pond bottom.
- Improves water quality.
- Increases DO Levels.
- Stabilizes physico - chemical parameters of pond water.
- Provides optimum favourable conditions to shrimp and fish growth.

DOSAGE :

10 to 20 kg during culture or 20 to 50kg per acre during pond preparation as suggested by consultant.

Presentation : 10kg.

Camoxy

Instant Oxygen for Aquaculture

COMPOSITION:

Sodium percarbonate 99%

INDICATIONS:

- It releases oxygen quickly and maintained Optimum D.O. level long period in pond water.
- It gives immediate relief from D.O. Problem.
- It Provides favourable conditions to shrimp & Fish.
- It eliminates toxic unwanted gases in culture ponds.

DOSAGE:

Prawn : 500gms to 1kg acre at normal conditions.

2 to 3 kg per acre at severe conditions of DO Problems.

Fish : 250gms to 500gms per acre at normal conditions.

1 to 2kg per acre severe conditions of DO Problems.

Presentation : 10kg.

NATURAL ZEOLITE Zeoron GRANULES

COMPOSITION :

SiO₂ - 60-63%
 Na₂O - 2-3%
 Fe₂O₃ - 2-3%
 CaO - 4-6%
 Al₂O₃ - 29%
 K₂O - 2%
 MgO - 2-3%
 Trace Elements-60ppm
 Natural Toxic Gas Binders-Q.S.

BENEFITS :

- Removes toxic gases like ammonia & H₂S.
- Improves water quality.
- Increases DO Levels.
- Stabilizes physico - chemical parameters of pond water
- Provides optimum favourable conditions for shrimp growth.

DOSAGE AND APPLICATION :**For Feed Application :**

During pond preparation : 5 to 10kg per acre.

During culture : 10kg per acre. or as advised by aqua culture consultant.

NOXI-PS

REMOVE TOXIC GASES

COMPOSITION :

Rhodopseudomonas sppRhodobacter,
 Rhodococcus sppThiobacillus,
 Nitrobacter & Nitrasomonas spp., Bacillus spp.,
 Strength 25×10¹⁰ 10 cfu per ml
 Broth nutrients with Adjuvant Q.S.

Benefits :

- Reduces level of toxic gasses such as ammonia nitrogen, nitrite and hydrogen sulfide to eliminate all kinds of odor in the sludge, while reducing the sludge amount.
- Photosynthetic bacteria reduces the chemical and antibiotic usage as it prevents aquatic life from disease.
- Photosynthetic bacteria decrease COD, SS (suspended substances) and BOD and improve water quality.

DOSAGE : 5-10 Lt. per acer (or) As Advised by aqua culture consultant

Presentation : 20Lt.

CAMARON

Presentation : 5Lt. & 20Lt.

FEDOX Gel

SHRIMP FEED ATTRACTANTS

COMPOSITION :

Fedox gel enriched with :
 Vitamins
 Minerals
 Amino acids (Lysine, Methionine, Threonine)
 Soluble proteins
 Malt extract
 Choline chloride
 Natural growth & Immuno stimulants

BENEFITS :

- Fedox enhances immunity.
- Fedox improves feed intake.
- Fedox increases bio-availability of feed nutrients.
- Fedox can be used regularly as general purpose gel.
- Fedox can be used as top up gel for the application of any supplement through feed.

DOSAGE :

20 - 25ml of Fedox per kg feed.

CAMARON

Presentation : 5Lt. & 20Lt.

VIB Gel

NATURAL Solution For Pathogenic Vibrio in Shrimp

COMPOSITION :

Natural High potential synergetic component extracts fortified with osmolytes and growth stimulants.

BENEFITS :

- Restricts proliferation of pathogenic vibrios in shrimp.
- Protects from vibriosis infections.
- Prevents transmission of Vibrio diseases.
- Enhances feed digestion and activity of shrimp.
- Improves gut absorption efficiency.
- Shows better weight gain.

DOSAGE :

20ml of Vib gel per kg feed.

CAMARON

Presentation : 25kg.

StamiN Gel

ENHANCES SHRIMP IMMUNITY

COMPOSITION :

Each 100g contains: Vitamin A: 50,000IU; Vit. D3: 16,000IU; Vit. E: 1.6g; Vit. K: 400mg; Vit. C:2.5g; B1: 100mg;B2: 600mg; B6: 200mg; B12: 0.4mg; Ca. panthionate:1g; Niacin: 1g; Biotin: 10mg; Folic acid: 36mg; Inositol: 1g; Glycated microminerals (complex mix): 1.5g; Lysine:500mg; DL Methionine: 250g; Threonine: 250mg; Glycine: 500mg; Soluble proteins: 2.5g; (Casein & Amino Protein), Betain. HCl: 100 mg; 1,3 B and 1,6 B Glucans: 150mg; Di- Sodium Phosphate: 2.5g; Potassium Chloride: 2.5g; Calcium gluconate: 1.5g; Methyl paraben sodium (MPS):50mg; Propyl paraben sodium (PPS):100mg; Bronopal: 150mg; Sodium Benzoate 200mg; Gel Base (Xanthan gum): 2.5g; Gelatin:500mg; Caramel: 100mg; Added Natural Flavor. Q.S.,

BENEFITS :

- STAMIN enhances immunity.
- STAMIN improves feed intake.
- STAMIN increases bio-availability of feed nutrients.
- STAMIN can be used regularly as general purpose gel.
- STAMIN can be used as top up gel for the application of any medicine through feed.

DOSAGE : 20 - 25ml of Stamin per kg feed.

CAMARON

Presentation : 10kg.

Multistrains of eco-friendly, Bio-Degradable Probiotic Bacterial Species

Piscis Pro

SOIL & WATER PROBIOTIC

COMPOSITION :

Spore form eco- friendly Bacterial strains of Bacillus subtilis, Bacillus megaterium, Bacillus polymyxa, Bacillus licheniformis, Bacillus coagulans. Each gram Profish contains 6 billion spore forming units.

BENEFITS :

- Piscis Pro degrades organic matter.
- Piscis Pro converts Ammonia & H₂S into Non toxic elements.
- Piscis Pro Improves DO Levels.
- Piscis Pro Optimises Water Quality Parameters.

DOSAGE FOR FISH :

2kg per acre at 2meter pond water depth.

CAMARON

Presentation : 10kg.

FMIN

Complete mineral supplement for Fish

COMPOSITION :

Each 5kg F-Min Contains :
Minerals :
Calcium (Ca) - 750g
Phosphorus (P) - 450g
Magnesium (Mg) - 120g
Potassium (K) - 300g
Sodium (Na) - 200g
Iron (Fe) - 60g

Zinc (Zn) - 30g
Manganese (Mn) - 13g
Copper (Cu) - 5.0g
Selenium (Se) - 700mg
Iodine (I) - 2.5g
Carrier - Q.s

BENEFITS :

- It contains sufficient Micro & Macro minerals to substitute mineral deficiency in Fish.
- Balances osmoregulatory mechanism.
- It supports development of good plankton in pond water.
- It improves water quality.

DOSAGE & APPLICATION :

For feed application : 5kg F-Min per ton of feed.
For water Application : 5kg F-Min per Acre. or as advised by aqua culture consultant.

CAMARON

Presentation : 1Lt.

శంఖు జలగ నివారిణి

FLUCid

CONTROLS GILL FLUKES IN FISH

COMPOSITION :

Phyllanthus niruri
Eclipta prosteta
Andrgraphis pinaculeta
Punica granatum
Terminalis cebula

BENEFITS :

- It effectively controls gill flukes like Dactylogyrus, Gyrodactylus & Paradactylogyrus in fish.
- It improves feed in take & good FCR.
- Avoids anemic conditions of fish due to gill flukes.

DOSAGE : 250ml. per acre.

CAMARON

Presentation : 1Lt.

Sanitex

Water sanitizer for FISH

COMPOSITION :

Dodecyl bromide, glutaraldehyde, Actipients and stabilisers.

INDICATIONS :

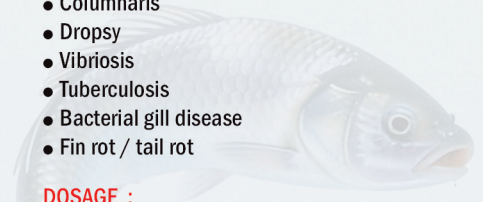

- Protects from bacterial , fungal and protozoan diseases.
- Controls effectively gill associated diseases and external red patches.
- Improves water quality.
- Improves fish health.

Effectively Controls on:

- Furunculosis
- Columnaris
- Dropsy
- Vibriosis
- Tuberculosis
- Bacterial gill disease
- Fin rot / tail rot

DOSAGE :

1Lt. per Acre.

CAMARON

Presentation : 1Lt.

LICE OFF

Controls fish ECTOPARASITES

COMPOSITION :

Lice off is unique combination of fish lice growth regulating natural herbal components.

BENEFITS :

- Lice off has rapid action and longer residual activity on parasites.
- It blocks larval metamorphosis in Lice.
- Lice off effectively works on all larval stages & adult stage of parasites.
- Lice off is completely safe to the fish.
- It stimulates fish growth.
- It improves feed intake and health condition of fish.

DOSAGE :

200-300ml. per acre.

Best Condition for Count HARVEST

SHELL FIT

CAMARON

Presentation : 1kg. & 5Kg

COMPOSITION : Each 100g contains:

Di sodium phosphate : 20g
Di potassium phosphate : 25g
Chitosan : 5g
Calcium phosphate Monobasic : 50g

INDICATIONS:

- High content and water soluble percent of calcium and phosphorus minerals.
- Immediately dissociation in pond water.
- Instant and effective absorption rate at lower dose.
- Shrimp become strong and fit for better count harvest.
- Improves feed digestibility for better growth.
- Immediate relief from soft muscle.

DOSAGE AND APPLICATION :

For Feed Application :

5gm per kg feed : dissolve 5gm Shellfit in 100ml. water apply to 1kg feed.

Pond application for conditioning shrimp :

2 to 3kg per acre 12 before harvest
take 2 to 3kg of Shellfit in 20L. Water mix well until dissolve and apply through out the pond at 12hr. before pond harvest.

Presentation : 1Kg.

MECA Soft

COMPOSITION :
Sodium Salt - 99%

BENEFITS :

- Reduce hardness in water.
- Useful for moulting.
- Reduce Shell Problems.

DOSAGE :
1 kg for acre

Presentation : 1kg.

CATAZYME

Enhances shrimp metabolism

COMPOSITION :
Protease, Lipase, Phytase, Amylase along with Vitamins, Amino Acids, Minerals fortified with organic Selenium.

BENEFITS :

- ▶ Enhances shrimp metabolism.
- ▶ Improves digestibility of feed nutrients.
- ▶ Increases feed intake.
- ▶ Favours uniform shrimp growth rate.
- ▶ Helps to achieve better FCR and yields.

DOSAGE & APPLICATION :
Dissolve 10gm of CataZyme in 100ml of water and apply to 1kg of feed then coat with Fedox Gel or as advised by aqua culture consultant.
